На нашем сайте вы сможете:

- 1.** Читать и скачивать все статьи о самых новых достижениях в вашем направлении исследований.
- 2.** Использовать наши материалы при написании отчётов НИР, магистерских и докторских диссертаций, подбирать статьи для сопоставительного анализа передовых достижений в отрасли.
- 3.** Быстро и точно определять рейтинговые журналы под ваши темы исследования. Сразу же на сайте журнала узнавать есть ли у этих журналов импакт-фактор и есть ли они в Scopus.
- 4.** Ознакомиться с инструкциями и требованиями и подать вашу статью для публикации.
- 5.** Открывать и предоставлять дистанционный доступ вашим студентам, магистрантам, докторантам и преподавателям к полнотекстовой базе из дома, либо с сотовых телефонов.
- 6.** Знакомиться со статистикой активности вашей организации.

Все журналы размещены на платформе Springer Link:

<https://link.springer.com>

Доступ к ним осуществляется по IP-адресам организации-подписчика

The screenshot shows the Springer Link website. At the top left is the Springer Link logo. To the right are links for 'Sign up / Log in', 'English', and 'Academic edition'. Below the logo is a search bar with a magnifying glass icon and a settings gear icon. A navigation bar contains 'Home' and 'Contact Us'. The main content area features a 'Browse by discipline' sidebar with a list of fields: Biomedicine, Business and Management, Chemistry, Computer Science, Earth Sciences, Economics, Education, Engineering, Environment, Geography, History, Law, Life Sciences, and Literature. The central text reads: 'Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.' Below this text are two book covers: 'Transactions of the Indian Institute of Metals' and 'Advanced Optical Methods for Brain Imaging'. To the right of the covers is an orange box with the text: 'New books and journals are available every day.'

The screenshot shows a Springer Nature book page. On the left is a book cover for 'Wireless Communication Networks and Internet of Things'. The main title is 'Wireless Communication Networks and Internet of Things'. Below the title, it says 'Select Proceedings of ICNETS2, Volume VI'. The editors are listed as Adamu Murtala Zungeru, S Subashini, P Vetrivelan. The page is identified as 'Conference proceedings' and part of the 'Lecture Notes in Electrical Engineering' book series (LNEE, volume 493). At the bottom, there are two buttons: 'Table of contents (25 papers)' and 'About these proceedings'. On the right side, there is a purchase section with a 'Log in to check access' link, a blue 'Buy eBook' button (circled in red), the price 'EUR 142.79', and a list of features: 'Instant download', 'Readable on all devices', 'Own it forever', and 'Local sales tax included if applicable'. Below this is a link to 'Learn about institutional subscriptions'.

Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.

Поиск по типу контента

New books and journals are available every day.

The complex block contains a central text area with a white background and a drop shadow. It features the text "Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works." Below this text are two book covers. The left cover is for "Sugar Tech" with a green background and a photograph of sugarcane. The right cover is for "Fluid-Structure-Sound Interactions and Control" with a red and black background. Below the covers is a pink banner with the text "New books and journals are available every day." To the right of the text area is a white box with an orange border containing the text "Поиск по типу контента".

Table of contents (22 chapters) **About this book**

Introduction **(1)**

This book reviews various aspects of papaya genomics, including existing genetic and genomic resources, recent progress on structural and functional genomics, and their applications in papaya improvement. Organized into four sections, the volume explores the origin and domestication of papaya, classic genetics and breeding, recent progress on genome sequencing and current and future applications of genomic resources for papaya improvement.

Bolstered by contributions from authorities in the field, *Genetics and Genomics of Papaya* is a valuable resource that provides the most up to date information for papaya breeders and biologists. **(2)**
